

# Configuring WAY4™ According to AMEX Requirements (April 2018)

# Contents

INTRODUCTION	1
CHAPTER 1. AMEX SETTINGS	2
Configuring Global Parameters	2

## Introduction

This document describes how WAY4™ must be configured to comply with AMEX American Express Global Network Services (AEGNS) requirements set forth in Release 18.1 documents.

## Chapter 1. AMEX Settings

To comply with AMEX requirements, WAY4 version 03.45.30.51 or the newer version 03.45.30.XX, if version 03.45.30 is used must be installed at the bank or processing centre. If the bank or processing centre uses WAY4 version 03.46.30, version 03.46.30.05 or higher must be installed.

The payment system will notify banks of the date and time when the new requirements become effective.

### Configuring Global Parameters

To comply with AMEX requirements, the value "18.1" must be assigned to the AMEX\_RELEASE global parameter. The new value must be assigned to the parameter before importing/exporting files pursuant to the new requirements.
