Configuring WAY4™ According to AMEX Requirements (April 2016)

Contents

Introduction

This document describes how WAY4™ must be configured to comply with AMEX requirements set forth in Release 16.1 documents.

Chapter 1. AMEX Settings

To comply with AMEX requirements WAY4 version 03.41.30(.00) or the newer version 03.41.30.XX, if version 03.41.30 is used must be installed at the bank or processing centre. If the bank or processing centre uses WAY4 version 03.42.30, version 03.42.30(.00) or higher must be installed.

Please contact the system vendor for information on the NetServer version necessary for these requirements.

The payment system will notify banks of the date and time when the new requirements become effective.

Message Types Dictionary Settings

Ensure that the WAY4 "Message Types" dictionary (Full → Configuration Setup → Transaction Types → Message Types – All) contains the following record:

	Channel	Name	Code	Category	Is Authorization	Trans Type	Msg Details	Service Class	Format Code
→		CH Debit Auth Advice	01200F	Advice	Auth	CH Debit		Transaction	

Ins Del   Query

If this record is missing, add it to the "Message Types" dictionary.
